

Getting ready for Spring gardening with Netatmo

The Netatmo Weather Station for Smartphone and its accessories are the perfect gear to get the garden ready for Spring planting and seeding

REAL TIME WEATHER READINGS

The two modules of the **Weather Station for Smartphone** measure indoor and outdoor temperatures, humidity, air pressure, sound level and air quality. Gardeners follow the fluctuations in weather in real time. In the App, a 7-day weather forecast helps plan outdoor activities.

TO WATER ONLY WHEN NEEDED

Green-fingered users can now measure the level of rainfall from their smartphone. Most convenient to know when to water the plants, the Netatmo **Rain Gauge** records the amount of rainfall per hour or cumulated over longer periods of time.

TO PRECISELY MONITOR WIND GUSTS

The Netatmo **Wind Gauge** measures the wind's speed and direction. It uses the latest ultrasound technology to produce extremely accurate measurements. The Netatmo Wind Gauge is maintenance free and has no moving parts.

About Netatmo

Founded in 2011, Netatmo is an innovative company developing consumer electronics for a better and connected lifestyle. Netatmo carefully designs their products' mechanics, electronics and embedded software. Netatmo industrializes them with the finest quality standards and designs the mobile and web applications that unleash their capabilities.

Netatmo's smart products fall into three categories: security, environment and heating.

The first device launched by the company, the Weather Station for Smartphone, allows owners to monitor the environment in more than 170 countries. It's the world's crowd-sourced weather observation network.

In November 2013, Netatmo launched their Thermostat for Smartphone, dedicated to the European market. Designed by Philippe Starck, it helps users to save 37% energy to heat their home. Netatmo launched Welcome in 2015. Welcome is an indoor security camera with revolutionary face recognition technology to distinguish who is home and to alert immediately about intruders.

At CES 2016, Netatmo unveiled Presence the first outdoor security camera with breakthrough deep learning technology, able to detect and report about people, cars and animals.

Netatmo is widely recognized for its products each year at the prestigious CES Innovations Design & Engineering. In 2016, the brand has been honoured for Presence with 4 CES Awards.
