## WEATHER ALERTS FOR SPORT LOVERS

Sports fans can know when it's the perfect time to go out and practice their favourite sports. Thanks to the Netatmo Weather Station and its Wind Gauge they are now able to monitor ultra local weather conditions in real time and send the measurements directly to the user's smartphone.

### GOOD TO GO?

**The Weather Station for Smartphone** allows users to monitor their environment. Its Outdoor Module provides users with real-time weather information: temperature, relative humidity and air pressure. Most convenient to know when to go for a run or playing tennis. **RPP: £139**

### NEVER MISS A GOOD WAVE

**The Netatmo Wind Gauge** measures the wind's speed and direction. It uses the latest ultrasound technology to produce extremely accurate measurements. Sports fans can now choose the best time to enjoy their outdoor activities: sailing, windsurfing and more. **RPP: £89**

### NO MORE CLOUDS

**The Netatmo Rain Gauge** records the amount of rainfall per hour or cumulated over longer periods of time. Ideal for those aiming to avoid a muddy golf course or ready to enjoy a fast kick-around on the football pitch. **RPP: £59**

#### About Netatmo

Founded in 2011, Netatmo is an innovative company developing consumer electronics for a better and connected lifestyle. Netatmo carefully designs their products' mechanics, electronics and embedded software. Netatmo industrializes them with the finest quality standards and designs the mobile and web applications that unleash their capabilities.

Netatmo's smart products fall into three categories: security, environment and heating.

The first device launched by the company, the Weather Station for Smartphone, allows owners to monitor the environment in more than 170 countries. It's the world's crowd-sourced weather observation network.

In November 2013, Netatmo launched their Thermostat for Smartphone, dedicated to the European market. Designed by Philippe Starck, it helps users to save 37% energy to heat

their home. Netatmo launched Welcome in 2015. Welcome is an indoor security camera with revolutionary face recognition technology to distinguish who is home and to alert immediately about intruders.

At CES 2016, Netatmo unveiled Presence the first outdoor security camera with breakthrough deep learning technology, able to detect and report about people, cars and animals.

Netatmo is widely recognized for its products each year at the prestigious CES Innovations Design & Engineering. In 2016, the brand has been honoured for Presence with 4 CES Awards.
