

NETATMO

The perfect gift
FOR EVERY KIND
of Mum

Netatmo means that all Mums can enjoy a smarter and a safer home or a greener garden this Mother's Day

FOR ENVIRONMENT-FOCUSED MUMS

The elegantly designed **Personal Weather Station** allows weather-enthusiast-Mums to monitor their outdoor and indoor environment by measuring weather conditions such as temperature, humidity and air pressure. Mums will receive alerts on their smart-phones to inform them when temperatures are dropping or if humidity is very high. This way, they'll always know which coat they should wear or if it's a good time for the kids to go cycling.

RRP £139

FOR GREEN-FINGERED MUMS

British springtime is infamously unpredictable but with the Netatmo **Rain Gauge**, gardening-Mums will always know when to water their plants or not. The Rain Gauge records the amount of rainfall per hour or accumulated over long periods, and promises a beautiful garden come summer.

The Rain Gauge is an accessory to the Weather Station

RRP £59

FOR BUSY MUMS

Indoor security camera **Welcome** has face recognition technology so Mums-on-the-go will always know who's at home, whether loved ones or a stranger. Even remotely, busy Mums know if their children are back from school and who are the friends they came home with. Welcome sends the names of the faces it sees to Mum's smartphone, and alerts them in the event of an intruder.

RRP £199

ABOUT NETATMO

Netatmo is a revolutionary smart home company, developing groundbreaking, intuitive and beautifully-designed connected consumer electronics. Truly smart, Netatmo's innovative products provide a seamless experience that helps users create a safer, healthier and more comfortable home.

Netatmo carefully designs the mechanics, electronics and embedded software of all its products to the highest standards. Netatmo also creates the mobile and web applications that fully realise their potential.

Since 2012 Netatmo has released thirteen devices and accessories, divided into four categories:

- Weather - The Personal Weather Station and its accessories, the Additional Module, the Rain Gauge and the Wind Gauge.
- Energy - The Smart Thermostat and the Smart Radiator Valves, both designed by Philippe Starck.

- Security - The security cameras Welcome, for indoor, and Presence, for outdoor, and their accessories, the Tags and the Indoor Security Siren, and the Smart Smoke Alarm
- Air care - Healthy Home Coach, the smart indoor climate monitor

Netatmo is a leading innovator in the smart home industry with products available through a growing network of distributors worldwide, selling to consumers through major retail and B2B channels.

Through its program "with Netatmo", Netatmo develops connected solutions with leading brands in the building industry to be integrated into residential home infrastructure, whether new-build or renovation.

In November 2015 Netatmo completed a series B funding round of €30 million. The company previously raised €4.5 million in 2013.
